

| Product Name             | REAGENT ALCOHOL 200 proof (Anhydrous), General Use HPLC/UV    |  |  |
|--------------------------|---|--|--|
|                          | Grain Derived Ethanol Denatured with METHANOL and ISOPROPANOL |  |  |
| Grade                    | Meets ACS Grade Monograph                                     |  |  |
| Catalog #                | 241HPLC200  |  |  |
| Lot #                    | C21E2000200RE200EO01  |  |  |
| Date of Manufacture:     | 05/24/21  |  |  |
| Recommended Retest Date: | Three Years from Date of Manufacture                          |  |  |

| TEST                                  |                    | SPECIFICATION            |              | RESULT        |
|---------------------------------------|--------------------|--------------------------|--------------|---------------|
| Assay (by GC):                        | Ethanol            | 89.5 – 91.5%             | 89.5 – 91.5% |               |
|                                       | Methanol           | 4.0 - 5.0%               |              | Pass          |
|                                       | Isopropanol        | 4.5 – 5.5%               |              | Pass          |
| Assay:                                | SDA3A 200          | 94.0 - 96.0%             | 94.0 – 96.0% |               |
|                                       | Isopropanol        | 4.0 - 6.0%               |              | Pass          |
| Water                                 |                    | 0.1% max.                |              | 0.02%         |
| Residue After Evaporation             |                    | 5 ppm max.               |              | <5 ppm        |
| Specific Gravity                      |                    | 0.7902 - 0.7912 @ 20.0°C |              | 0.7904        |
| Specific Gravity 0.785 - 0.795 @ 25.0 |                    | 0.785 - 0.795 @ 25.0°C   |              | 0.787         |
| Color (Pt-Co)                         |                    | 5 Max.                   |              | <5            |
| Appearance                            |                    | Clear Liquid             |              | Pass          |
| Odor                                  | dor Characteristic |                          | Pass         |               |
| Identification                        |                    | To Pass Test             |              | Pass          |
| Titrable Acid                         |                    | 0.0003 meq/g             |              | <0.0003 meq/g |
| Titrable Base                         |                    | 0.0002 meq/g             |              | <0.0002 meq/g |
| Substances Reducing KMnO <sub>4</sub> |                    | To Pass Test             |              | Pass          |
| Solubility in Water                   |                    | To Pass Test             |              | Pass          |
| Refractive Index 1.3580-1.3610 @ 25°C |                    |                          | 1.3587       |               |
|                                       |                    | 205nm                    | 1.00 max     | 0.79          |
| Ultraviolet Absorbance                |                    | 210nm                    | 0.60 max     | 0.41          |
|                                       |                    | 220nm                    | 0.30 max     | 0.21          |
|                                       |                    | 230nm                    | 0.20 max     | 0.11          |
|                                       |                    | 250nm                    | 0.05 max     | 0.02          |
|                                       |                    | 270nm                    | 0.01 max     | 0.00          |
|                                       |                    | 400nm                    | 0.01 max     | 0.00          |
| Fluorescence Ba                       | ckground           | To Pass Test             |              | Pass          |
| LC Suitability                        |                    | To Pass Test             |              | Pass          |

## **Certification and Compliance Statements**

This lot of Reagent Alcohol 200 proof complies with the American Chemical Society monograph, all of the above mentioned specifications and the requirements of 27 CFR Part 20.

This product is not derived, nor does it come in contact with, any materials derived from bovine or other animal sources.

This product is for further commercial manufacturing, laboratory or research use, and may be used as a process solvent for pharmaceutical purposes. It is not intended for use as an active ingredient in drug manufacturing nor as a medical device or disinfectant. Appropriate/legal use of this product is the responsibility of the user.

Fighwany Baugrewe
