

Certification of Compliance and Sterility

This is to certify that the below listed product(s) have been inspected and released in accordance with Plant Standard Production Methods and Process Quality Assurance Specifications. All resins used in the processing of these products have been approved and released.

The product(s) listed below has been subjected to an E-Beam sterilization process and routine control is in compliance with EN ISO11137-1:2006. Sterilization parameter setting is in compliance with internal specifications. The sterilization equipment is calibrated, and validated.

<u>Product</u>	<u>Description</u>	<u>Lot Number</u>	<u>Sterilization Date</u>
PC4064200S	CLIKSEAL	CL2008B01	8/24/2020

Materials of Construction: Polypropylene/High Density Polyethylene
Country of Origin: China
Not made with natural rubber latex
